The 2011 E-Class Sedan and Wagon

Mercedes-Benz

S OY 4139

Summing up Mercedes-Benz in one letter.

For over 60 years, the letter E has been synonymous with comfort, safety and elegance. It is a tradition that the 2011 E-Class is proud to continue. The driving experience is as sublime as always with a wide range of exciting engines complemented by our intelligent transmission and suspension systems.

The roots of the E-Class can be traced back as far as the early 20th century, when it set the lead for others to follow, both technologically and economically. Its timeless design still sends Mercedes-Benz enthusiasts into raptures to this day.

All the best aspects of the previous eight generations of the E-Class are combined in both the E-Class Sedan and E-Class Wagon. The high levels of comfort and safety are the result of many decades of development work at Mercedes-Benz. Yet the end result is something utterly unique: the E-Class.

TEST DRIVE 44

The picture of elite engineering.

The E-Class Sedan body pays visual homage to its predecessors. Yet it displays its very own design idiom: the front end sweeps back dynamically, the long flanks exude athleticism and the rear section is emphatically broad. The presence and appeal of the E-Class Sedan is instantly apparent to the observer, displaying a sense of self-assurance that is perfect in keeping with its long history of pre-eminence. It is a picture of pure power.

The striking exterior of the E-Class Sedan includes the standard AMG Styling Package featuring dynamic front and rear aprons and powerful side sill panels. The design leaves no doubt that the 2011 E-Class embraces all the characteristics of a genuine Mercedes-Benz.

At home on the road.

We've thought ahead so you can enjoy the drive. The interior is uncluttered and all the controls laid out intuitively. Simply get in and drive away. In one sense, you've already reached your destination: a place where you can sit back and relax.

Just a peek through the open door provides a glimpse of the re-interpreted ambiance that boasts a sporty, stylish design along with distinctive appointments that make the E-Class Sedan interior feel more like a living room than a vehicle.

The use of the finest-grade materials and their outstanding workmanship create a high-quality impression, both in terms of look and feel, and on a functional level. A wide range of ARTICO[1] and premium leather options ensure that you will revel in customized splendor. Wood trim enhances the leather interior, while a heated Nappa leather steering wheel[2] is the perfect final touch.

An atmosphere of total comfort is standard in the E-Class Sedan – thanks in no small part to the THERMATIC automatic climate control system, which allows front seat occupants to select temperature levels to suit their own individual requirements. The advanced THERMOTRONIC automatic climate control system[3] allows separate temperature control in three different zones. Furthermore, humidity and pollutants are monitored and, if necessary, THERMOTRONIC automatically switches to recirculation mode.

[1]Man-made leather. [2]Not available on the E 63 AMG Sedan. Standard on all other models.
[3]Standard on the E 550 4MATIC™ Sedan and E 63 AMG Sedan. Not available on E 350 models.

Astounding form.

A tasteful blend of different worlds defines the new E-Class Wagon's unique character. It features a modern, yet emotional aerodynamic design, supported by standard AMG styling, roof rails, benchmark-setting storage capacity and cargo dimensions, and all the technical innovations from the E-Class Sedan. The comfort, safety and elegance of a sedan combined with the high utility value of a wagon are all traits that the latest-generation E-Class Wagon displays with aplomb.

E 350
S SJ 5124

Bountiful comfort.

The E-Class Wagon has plenty of storage space. Intelligent solutions are required to enable it to be used efficiently – such as the EASY-PACK load compartment management system.

EASY-PACK QUICKFOLD
An actuating lever on the left and right at the D-pillars enables the rear seat backrests to be folded down, even from the load compartment, for easy loading. The release handle in the rear seat backrest area means one move is all it takes to fold the backrest forward. Even when it's upright, the regular trunk capacity is an ample 695 litres.

EASY-PACK FOLDING LOAD COMPARTMENT FLOOR
The EASY-PACK folding load-compartment floor hides an additional storage space of 132 litres. Its folding mechanics let it open in stages for easier loading. A second load level comes in the form of a compartment case with an additional collapsible crate beneath the folding load-compartment floor.

EASY-PACK LOAD-SECURING KIT[1]
Along with the second load-compartment level, the Wagon can be supplied with an EASY-PACK load-securing kit. It includes a telescoping bar that attaches to the cargo rails at the sides, letting you divide the load-compartment into different zones. Items can be secured to the luggage compartment sides using the retractable load-restraining belt. The EASY-PACK rear sill protector helps protect the bumper and boot sill from scratches or damage during loading and unloading.

[1]Available as a standalone option. Folding rear-facing 3rd row bench seat must be deleted.

EASY-PACK LOAD COMPARTMENT COVER
A combined load-compartment cover and net are positioned in the C-pillar area. The load-compartment cover, colour-coded to match the interior appointments, shields luggage from both the sun and prying eyes. For easy loading, it automatically moves upwards when the tailgate is opening and returns to its original position when the tailgate is closed. Depending on the size of the load being carried, the safety net for dividing the load compartment can be attached between the B-pillars or the C-pillars. This effectively protects occupants from loose items in the load-compartment. Further load-compartment features for safe and tidy stowing include nets integrated in the side panelling for smaller items, bag hooks that pop out at the press of a button, and a 12-volt socket providing an additional power supply.

EASY-PACK POWER TAILGATE
The electro-hydraulic EASY-PACK power tailgate can be opened by the press of a button from the driver's seat, at the tailgate or by using the ignition key. It can be closed again using a switch on the tailgate. Additionally, it can be stopped in a lower position to prevent contact with low garage ceilings.

Comfort can take you anywhere.

When it comes to making you feel at ease, the E-Class Sedan and Wagon have few rivals – which is not about to change – but we have refined a few of the details to help enhance the feeling.

Standard 14-way power adjustment for the heated front seats and power adjustable lumbar support for the driver's seat allow the ideal seat position to be found. Climate Comfort seats[1] are available for you and your front passenger, featuring active ventilation to cool the seat surfaces and individually adjustable luxury head restraints.

The E-Class doesn't leave your rear-seat passengers out in the cold, either. The rear seats are heated[2] to ensure that everybody travels in perfect comfort.

[1]Only available as part of the Premium Package on the E 63 AMG Sedan. Available as a standalone option on the E 550 4MATIC™ Sedan. Not available on E 350 models. [2]Only available on the E 550 4MATIC™ Sedan and E 63 AMG Sedan as part of the Premium Package. Available as a standalone option on E 350 models with leather upholstery.

You will be entertained.

The E-Class Sedan and Wagon take entertainment to the same level as they take comfort and driving enjoyment.

You'll survey all the cockpit controls in a single glance thanks to the multifunctional COMAND display screen in the centre console. The 7" colour LCD display has extended functionality and is more intelligent and user-friendly than ever before. The COMAND APS system[1], equipped with an integrated hard-disc drive (HDD) navigation and 6-disc DVD changer, combines navigation, audio and telephone into one intuitive design. Easier still, all key functions can now be called up by means of the LINGUATRONIC voice control function. The destination input section of the navigation system has whole-word recognition capability for points of interest and road names.

Listening to your favourite music in the E-Class becomes a truly outstanding sensory experience thanks to the premium harman/kardon® LOGIC7® surround sound system[2], featuring 14 loudspeakers, 610 watts of power and a 9-channel Digital Sound Processing (DSP) amplifier. You're certain to appreciate the Media Interface[3], which gives you 3 different connection cables – one for your iPod®, a USB input for memory sticks and the auxiliary audio input.

Standard Bluetooth connectivity is also included, allowing you to enjoy safe, hands-free use while driving.

SIRIUS Satellite Radio[4] is at your fingertips, integrated into your vehicle's audio system. It's easy and works seamlessly with your vehicle radio controls just like you expect your vehicle radio to work; including the ability to preset your favourite channels. Visit **sirius.ca/mercedesbenz** for more information about additional features.

With 120 channels of music, sports, news, talk, and comedy, SIRIUS brings you the freedom to choose your audio experience wherever you drive. With coast-to-coast reception coverage, listen to what you want, when you want, in your SIRIUS equipped E-Class. And since every SIRIUS subscription includes free online listening, you can keep listening to SIRIUS in those moments when you only wish you were driving.

Whether it's listening to the latest news during the morning commute on CNN Radio, escaping the stress of work at the end of the day with Raw Dog Comedy, or enjoying the open road with your favourite song, SIRIUS delivers what you need wherever your journeys take you.

The E-Class makes the best of the weather, whether it's bad or good.

Our award-winning 4MATIC™ permanent all-wheel drive system gives you excellent control over your E-Class Sedan or Wagon, so you can drive with complete confidence, no matter what the season or road conditions. It is always engaged, relentlessly sending torque to each wheel independently, ensuring optimal traction and control.

4MATIC™ is aided by our 4-wheel Electronic Traction System (4ETS). 4ETS monitors each wheel for the first sign of wheel slippage. It then individually brakes the slipping wheels to maintain the perfect balance of power and traction. By continuously ensuring that more power goes to the wheels with more grip, 4ETS can help keep you moving, even if only one wheel has traction.

4MATIC™ also works seamlessly with our Electronic Stability Program (ESP®), enhancing your all-wheel drive advantage through curves in rain, snow, and even on dry roads.

4MATIC™ CONTROL

Performance art at its finest.

The E 350 4MATIC™ Sedan and Wagon feature a V-6 engine that produces 268 hp and 258 lb-ft of torque, giving you plenty of power to get the most out of everyday driving. Performance goes a step further on the E 550 4MATIC™ Sedan with its V-8 engine. The key data: 5.5-litre displacement, 382 hp and 391 lb-ft of torque. The result: a sublime driving experience, whatever the situation. Thanks to a lower final drive ratio, we were able to lower the engine speed level – and with it, the noise level.

It's amazing how quiet the six cylinder E-Class BlueTEC diesel engine runs while delivering exemplary power in any driving condition. The E 350 BlueTEC Sedan has a maximum power output of 210 hp, impressive 400 lb-ft of peak torque and a 0 to 100 km/h acceleration time of 7.8 seconds. Equipped with our next generation BlueTEC technology, this turbo-charged engine also meets the world's toughest exhaust emission regulations, while AdBlue injection, employing both the common-rail direct injection principle and a special particulate filter, makes it one of the world's cleanest diesel engines, eliminating more than 80 per cent of nitrous oxide emissions.

With seamless performance and up to 1,176 km per tank[1], the E 350 BlueTEC Sedan is yet another important step closer to the Mercedes-Benz goal of emission-free mobility.

The top-of-the-line E-Class engine is the high-performance AMG power plant in the E 63 AMG Sedan. It provides 518 hp and 465 lb-ft of torque and rockets the vehicle to 100 km/h in just 4.5 seconds. There is no more exciting way to take to the open road than in the E 63 AMG Sedan.

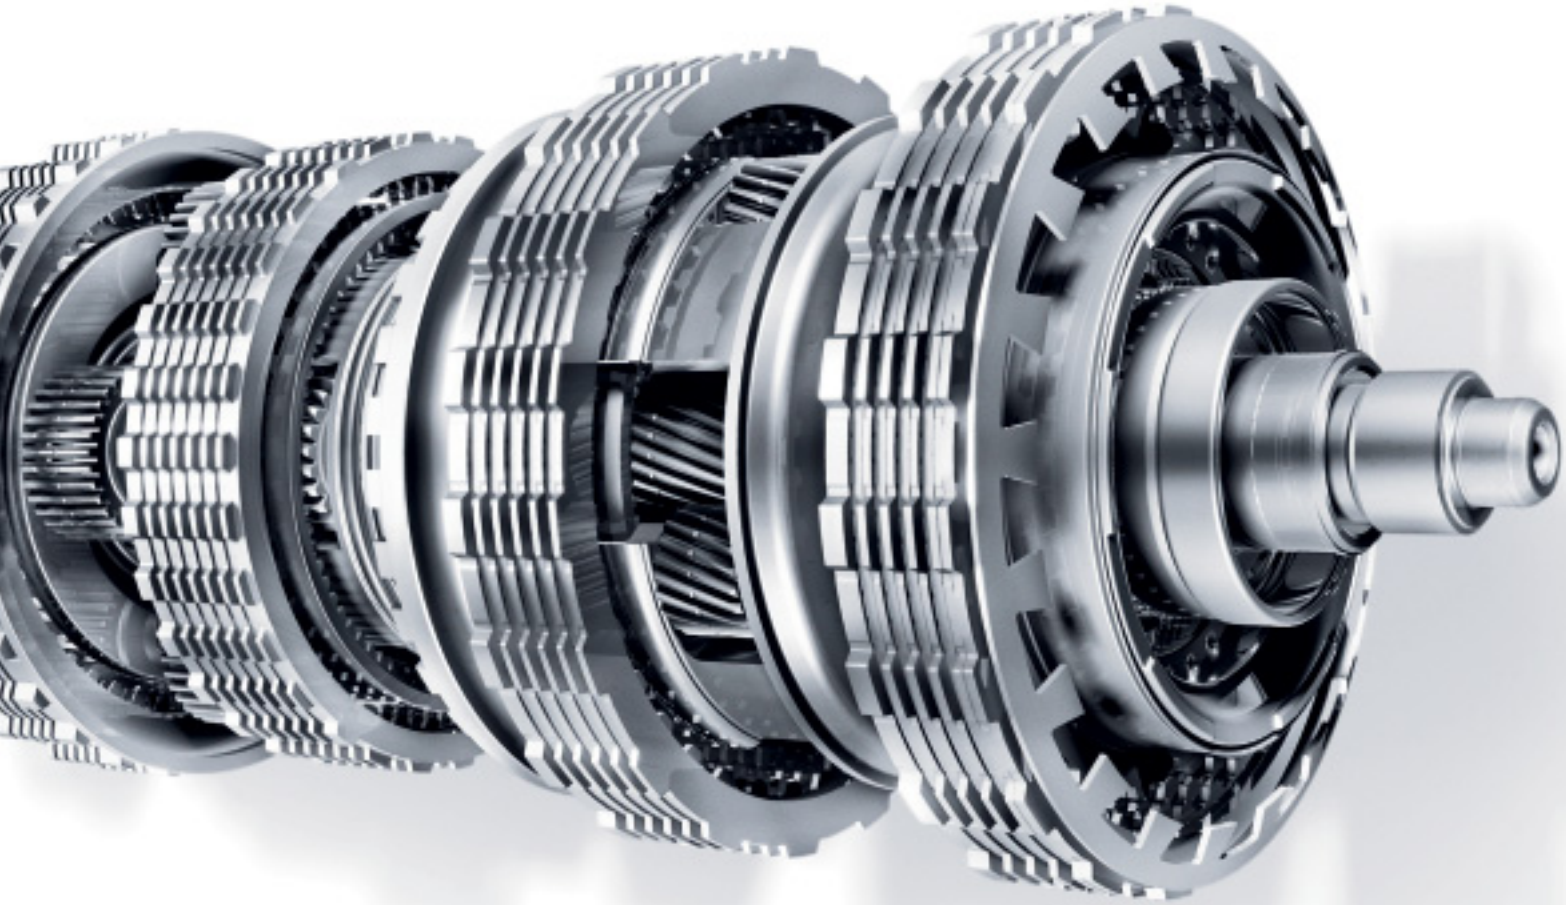
[1]Highway driving.

Power and presence in a sleek package.

All E-Class models combine magnificent power delivery with economy and environmental compatibility, because fitted standard on all E-Class models is the 7G-TRONIC, 7-speed automatic transmission. This engineering masterpiece ensures barely perceptible shifts through the entire range of gears.

Along with intelligent transmission programming that learns and adapts itself to your personal driving style, 7G-TRONIC can skip several gears for responsive stopping power or when downshifting for quick bursts of speed. It also boasts a second reverse gear with a higher transmission ratio to make pulling away on ice and snow easier and safer. You can change gears using the steering wheel shift paddles or leave the job to the automatic transmission.

The seven forward gears in the 7G-TRONIC allow an ideally adapted engine speed at all times, thus reducing fuel consumption. The shorter shift times and smoother shifts make gear changes that much easier, as well as reduce the noise level, which all combined result in the perfected driving experience you would expect from such an advanced machine.



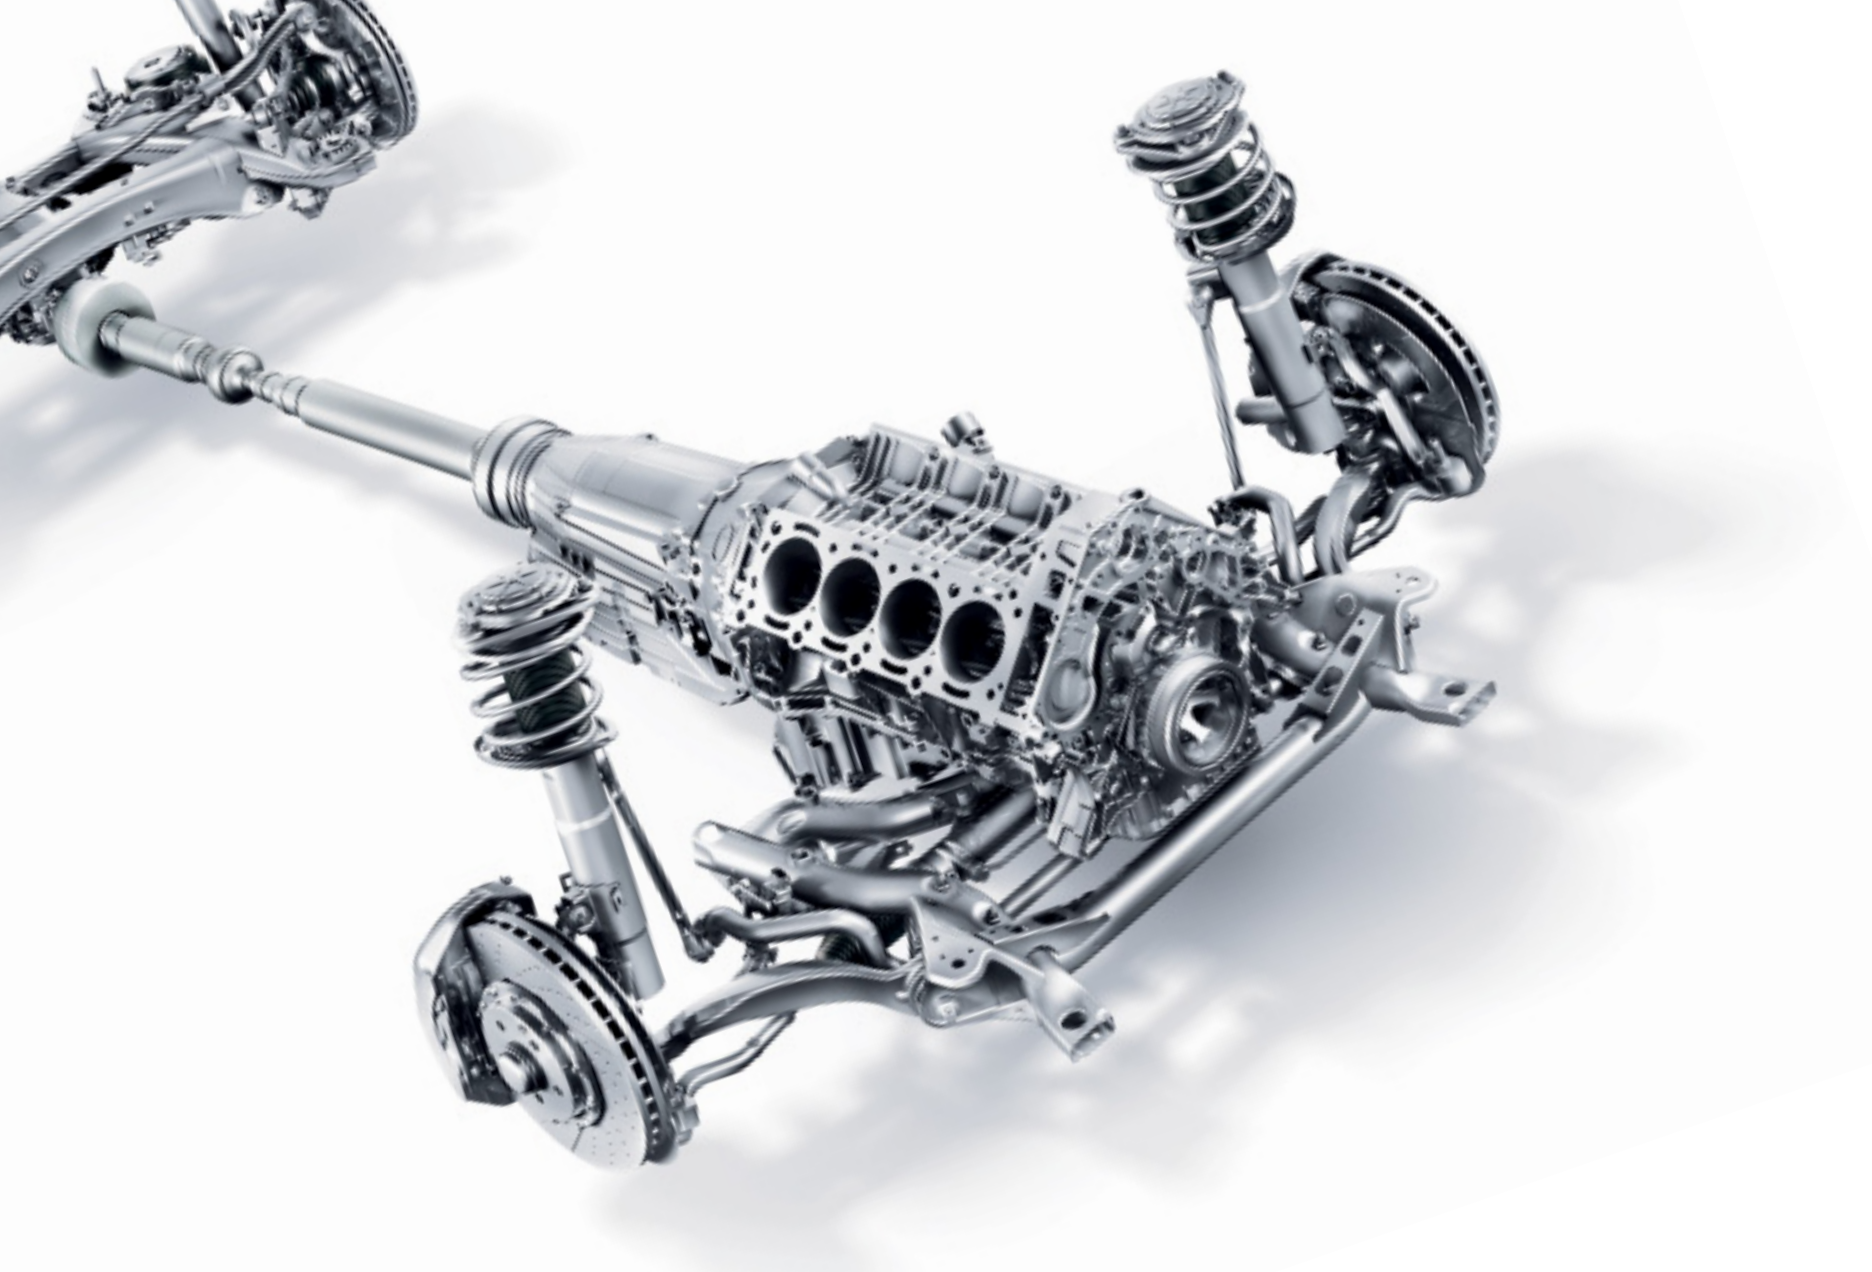
Put the damper on boredom.

Fine wood and sumptuous materials aren't the only factors that help create the exceptional comfort you'll experience in the E-Class Sedan and Wagon. The silence of the E-Class is legendary. Credit for the low noise levels inside the vehicle goes in part to the measures taken to isolate engine sound. This and further extensive sound-absorbing measures mean that, while you'll hear a lot about the E-Class, you won't hear a lot from it.

Further to its almost imperceptible engines and transmissions, the E-Class' enhanced DIRECT CONTROL package gives you more driving enjoyment, particularly through corners, with no loss of ride comfort. Direct steering and reduced pitch and roll help to create a more agile driving experience.

All of this is taken to an even higher level with standard AIRMATIC DC air suspension[1] on the E 550 4MATIC™ Sedan. AIRMATIC DC uses the Adaptive Damping System (ADS) to reduce body roll when cornering. If the sensors detect a sporty driving style, the comfortable default suspension setting is automatically firmed up. AIRMATIC DC is self-levelling and maintains a constant ride height for greater stability and improved handling. At high speeds, the body is automatically lowered to reduce roll and pitch.

[1]Not available on E 350 models or the E 63 AMG Sedan.



Be ready for the unexpected.

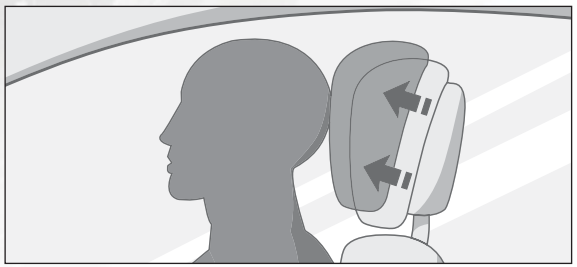
Mercedes-Benz is the first and only automaker to offer built-in technology to help you drive safer and protect you in the event of danger and after an accident. The E-Class Sedan and Wagon are no exception, they are the rule.

Technology made up of active safety features like the “control and display” concept, minimize distractions from the road. Systems that provide support in critical situations and alert the driver to potential hazards – such as our Electronic Stability Program (ESP®) and integrated Brake Assist (BAS) system[1] - are cornerstones of the safety design. The vehicle’s safety technology activates in the event of danger, including anytime evasive steering manoeuvring is detected, and it takes precautionary measures to reduce the risk of injury to occupants. But thanks to standard Active Bi-Xenon headlamps, you will now be able to detect obstacles earlier than previously possible.

Should an accident be unavoidable, the advanced technology is quick to react, offering protection for your own vehicle and for others, including a high-strength safety cell, adaptive front air bags[2], front side-impact air bags, pelvic air bags, a driver’s knee air bag, head protection curtains, the crash responsive NECK-PRO front head restraints, and more. And should an airbag or emergency tensioning device be activated, the vehicle can engage the optional TeleAid System[3], putting your vehicle in touch with the TeleAid Emergency Response Center, where trained specialists can assess the situation and alert emergency services quickly and efficiently.

[1]No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Best performance in snow is obtained with winter tires. [2]WARNING: The forces of a deploying air bag can cause serious or fatal injuries to a child under age 13. Children under 13 should be seated in the back seat if possible. See Operator’s Manual for additional warnings and information on air bags, seat belts and child seats. [3]Subscription is required for service to be active. TeleAid operates only where cellular and Global Positioning System coverage is available. Available as a standalone option on E 350 models. Standard on the E 550 4MATIC™ Sedan and the E 63 AMG Sedan.

The NECK-PRO front head restraints are sensor-controlled.



Take a hard line on safety.

Make yourself at home in one of the world's most attentive vehicles. Every detail is built around you, for your safety and your comfort. Over 80 sensors make it their job to see to your well-being, while countless innovations give you that reassuring feeling of safety.

Wouldn't it be good to have a watchful companion by your side at all times? Someone who knows you well and steps up to the plate when you need them most? That "someone" is ATTENTION ASSIST. Fitted as standard, it monitors your driving style and warns you that you are becoming drowsy or letting your attention stray. Likewise, Passive Lane Keeping Assist[1], a series of three simple vibrations of the steering wheel that alerts you if you are unintentionally drifting out of your lane, and Passive Blind Spot Monitoring[1], which monitors the blind spots to the sides of the vehicle within a range of 3 metres, make significant contributions to driving safety.

For the ultimate in safety assistance, look no further than DISTRONIC PLUS[2] including PRE-SAFE® BRAKE. With a radar-based proximity control that can detect and react to imminent collisions with oncoming traffic, this revolutionary system is available as part of the Advanced Driving Assistance Package which also includes Active Blind Spot Monitoring and Active Lane Keeping Assist which gently and imperceptibly applies the brakes to bring the vehicle back into the appropriate lane if wandering is detected. These features, along with all the other state-of-the-art innovations, ensure that no matter what the situation or road condition, you can rest assured in the safety of your E-Class Sedan and Wagon.

[1]Available as part of the Driving Assistance Package on E 350 models and the E 550 4MATIC™ Sedan. Available as part of the DISTRONIC PLUS Package on the E 63 AMG Sedan. [2]Available as part of the Advanced Driving Assistance Package on E 350 models and the E 550 4MATIC™ Sedan. Available as part of the DISTRONIC PLUS Package on the E 63 AMG Sedan.

S MA 6306
AMG

Four-door sedan. Four-star performance.

The most powerful E-Class comes courtesy of the Mercedes-Benz AMG motor sport experts. The E 63 AMG Sedan has 518 hp and accelerates from 0 to 100 km/h in just 4.5 seconds. And 465 lb-ft of torque ensures that acceleration from any other speed is an equally breathtaking experience. The top speed is electronically governed at 250 km/h, but there are no limits to the driving pleasure offered. That's partly due to the AMG SPEEDSHIFT MCT 7-speed transmission with rapid shift times. The four shift programs give you a choice between a Controlled Efficiency, Sport or Sport Plus mode, as well as a manual mode that lets you change gears using AMG shift paddles mounted to the steering wheel. The set-up has distinct echoes of the world of motor racing – as does the AMG high-performance braking system with its composite front brake discs, and the AMG sport suspension[1].

In visual terms, the E 63 AMG Sedan cuts a striking figure. The AMG body styling consists of a front apron, unique LED daytime running lights, aggressive side skirts and a rear apron with integrated diffuser. A slick AMG spoiler enhances the trunk lid. Other exclusive features of the E 63 AMG Sedan include a dual AMG sport exhaust with chromed twin tailpipes and AMG 19" twin 5-spoke forged alloy wheels, painted titanium grey and burnished.

In the exclusive interior of the E 63 AMG Sedan, high quality Passion leather appointments await. There's an ergonomic AMG sport steering wheel to help you keep the E 63 AMG Sedan under firm control while AMG sport seats hold you in place during spirited driving. These various features, including the RACETIMER in the AMG instrument cluster – assure an exciting motor racing atmosphere.

[1]Available as part of the AMG Performance Package.

Irresistibly beautiful and beautifully resistant.

Thanks to the ingenious paintwork system from Mercedes-Benz, we have succeeded in further enhancing the high-class visual appeal of our vehicles, and as a result, their actual value retention. The paint developed by Mercedes-Benz is more resilient than conventional clear coat finishes thanks to its particularly dense molecular structure. You can rest assured that your new Mercedes will retain its lustrous appearance throughout its motoring life.

An E-Class that matches your style to perfection.

designo offers a true feast for the senses. Once your eyes have taken in the many bespoke paint finishes and the leather combinations, you'll savour the scent of the fine leather and the touch of the exquisite wood surfaces. But it's not just the quality and workmanship that make *designo* so unique: it's also the almost infinite range of combinations. They allow you to give your Mercedes-Benz a signature of its own – as if you were furnishing your home.

The seats and door centre panels can be trimmed in *designo* leather in a choice of nine shades. The unique upholstery fluting, with elaborately stitched double lap seams, is exclusive to *designo*. Rich alcantara headliners are also available.

For *designo* wood trim, you have the choice of Curly Maple, Bamboo or Black Piano Lacquer, available with a matching wood and leather steering wheel.

Have we whetted your appetite? See your dealer for further details.

[7]Subscription is required for service to be active. TeleAid operates only where cellular and Global Positioning system coverage is available.

The final touch for a great first impression.

You're an individual. You take pride in setting yourself apart. You also enjoy the finer things in life. Satisfy all of your discerning needs with Mercedes-Benz GenuineParts and accessories, designed and manufactured to the highest standards for design, engineering, appearance, quality, form and function. Add nuance and unique refinement to your E-Class. It's an ideal way to add your own distinctive style to an already stunning automobile.

Rear Spoiler

Add this rear spoiler for a more athletic look for your E-Class, and watch as it subtly accentuates the trunk lines of your vehicle. Tailor-made of high-quality material for quick installation and a perfect fit.

Roof Spoiler

This roof spoiler extends the roofline of your E-Class enhancing its sporty appearance by giving the rear window a more compact, coupe-style look.

18" Two-Tone 5-Spoke Wheels

Personalize your E-Class with these unique black and polished finished wheel. They are sure to make a statement wherever your journey takes you.

Trunk Tray and Cargo Box

Help protect the cargo area of your E-Class with this custom fitted Trunk Tray. Formed from durable, easy-to-clean plastic to fit your vehicle. A Cargo Box will help keep the items in your trunk organized and help prevent them from moving around when the vehicle is in motion.

[1]Stated rates of acceleration are based upon the manufacturer's track results and may vary depending upon model, environmental and road surface conditions, driving style, elevation and vehicle load. [2]Electronically limited.
[3]These estimates are based on Transport Canada testing methods. The actual fuel consumption of this vehicle may vary. Refer to the *Fuel Consumption Guide*. [4]Dimensions shown are for models with standard equipment.

A passion for things done right.

It's what you expect from Mercedes-Benz. A passion for craftsmanship and attention to detail is what sets Mercedes-Benz apart from all other manufacturers. This passion drives us to set new standards in design, performance, comfort and safety. To continually build on the legendary traditions of Mercedes-Benz, and to provide you with an ownership experience unlike any other, including the valuable benefits described below.

24-hour Roadside Assistance

During the basic warranty coverage of 48 months and the time duration of the optional Extended Limited Warranty, Mercedes-Benz Roadside Assistance will be at your service. We'll bring you some gas, replace a flat tire with your spare, or jumpstart your car. In the event of a mechanical breakdown, if attempts by our Roadside Assistance technician have not made your vehicle safely operable, towing service will be provided to the nearest Mercedes-Benz dealership. Assistance is available 24 hours a day, every day, to anyone driving a Mercedes-Benz anywhere in Canada or the continental U.S.[1]

Wear and tear period

The following parts listed are covered for wear and tear during the first 24 months or 40,000 km, whichever comes first. Brake pads, brake discs, brake pad wear sensors and light bulbs.

Mercedes-Benz warranties

The Mercedes-Benz New Vehicle Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km, whichever comes first. To widen your window of confidence, you can opt for a Mercedes-Benz Extended Limited Warranty as well[2].

Customer service

Owning a Mercedes-Benz means that when you have a question, we're here to help. Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday, and is staffed with knowledgeable Mercedes-Benz people who can talk you through the finer points of working your car's audio system — or even assist you in locating the nearest Mercedes-Benz dealership. Just call 1-800-387-0100. It's that simple.

Trip interruption reimbursement

If a breakdown covered by your New Vehicle Limited Warranty or optional Extended Limited Warranty occurs more than 80 km from your home, leaves your Mercedes-Benz vehicle inoperable or unsafe to drive, and requires overnight repairs, we've got you covered. You will be reimbursed up to $500 for hotel accommodations and up to $600 for alternative travel expenses per incident while your car is being repaired at an authorized Mercedes-Benz dealership.

[1]Vehicle must be accessible from main roads. Roadside Assistance may involve charges for parts, service and towing. Depending on the circumstances, these services may be provided by an outside service provider, courtesy of Mercedes-Benz Roadside Assistance. For full details of the Roadside Assistance Program, please see your dealer. [2]Please see your dealer for warranty details as well as for terms, conditions and pricing for extended warranty options.

There's virtually so much more.

Visit www.mercedes-benz.ca and open an online window to Mercedes-Benz Canada. Revel in the incredible photography of our vehicles and get a visceral impression of what it would be like to see yourself behind the wheel. Get information about any of our vehicles, including financing and leasing options, upcoming models, and how to configure your own ideal Mercedes online. Our website also offers details about the Mercedes-Benz Extended Limited Warranty, vehicle ownership, and much more on the fascinating story behind one of the world's most recognizable brands.

To be continued. With a test drive.

Nowhere is a Mercedes-Benz so convincing as on the road. It is only there that you can fully experience the effortlessly superior handling that makes this car so special. You can feel how the powerful engine drives the vehicle onwards and how the precise steering movements have a direct effect on your own mood. The special atmosphere that arises during a drive in a Mercedes-Benz cannot be put down on paper. That's why we would like to invite you to reserve an appointment for a test drive at your local Mercedes-Benz dealer. Or visit www.mercedes-benz.ca. We look forward to seeing you.
